

Dear Student:

If you are currently completing Grade 11 or 12, looking for a summer job and are considering pursuing a career in the trades after high school, the Summer Youth Internship Program is for you! **The internship starts on July 5, 2021 and ends on August 13, 2021.** This program entails a six-week commitment, and therefore careful consideration should be taken before applying to the program. Some internships may be extended.

Positions are available in the following areas:

- | | |
|------------------------------------|-------------------------------------|
| ✂ Welding | ✂ Roofing |
| ✂ Carpentry | ✂ Electrical |
| ✂ Millwright | ✂ Steel Fabrication |
| ✂ Plumbing | ✂ Millwork |
| ✂ Masonry | ✂ Cook |
| ✂ Machining | ✂ Fabrication |
| ✂ Instrumentation | ✂ Excavating |
| ✂ Mechanic (Heavy Duty/Automotive) | ✂ Sheet Metal |
| ✂ Horticulture | ✂ Agricultural Machine Service Tech |

Your completed application form, including your resume should be sent to the SIEC office no later than Tuesday, May 11, 2021. If your application is successful, you will be contacted, and an interview will be arranged. After the interview, if you are offered a position you will be required to complete the necessary safety training, which may include industry safety programs including WHMIS, Safety Construction Orientation Training, Fall Safety Awareness, Food Safe and others if you currently do not have these courses. Applying to this program does not guarantee you a summer position, but the Summer Youth Internship Program team will do their best to accommodate as many students as possible.

The SIEC will have a Youth Internship Coordinator along with job coaches to oversee the program and ensure the documents for apprenticeship are completed. These people will monitor your progress and will also act as supports for both you and your employer throughout the internship.

Credit Option

Those enrolled in the 2021 Summer Youth Internship Program have the opportunity to apply for high school Apprenticeship Credits that can be applied towards high school graduation. If you are interested in this option, please indicate on the application form provided to you.

SO WHY SHOULD I APPLY? Students who are placed in the program obtain summer employment and get paid competitive industry wages, as well as have the opportunity to complete their youth apprenticeship over the summer. The best part though, is that students are provided with a mentor and are given the opportunity to experience first-hand what the trades industry is all about. The experience gained by the students and the networks they establish through the program prove to be very valuable when making career-life decisions in the future.

If you are successful on moving onto the next stage of the SYIP, you will be invited to a **mandatory info night on Tuesday, May 18th from 7:00PM – 8:30PM.** Parents/Guardians will also be asked to attend.

Any additional questions can be directed to Megan Unrau at 306.381.8054 or megan@saskatooniec.ca

Sincerely,

Megan Unrau
SYIP Coordinator
